Dear Mr. Monnig:

Your slice of Nazareth should have reached you before now. It was shipped on July 18. I hope that it arrived in good shape and that it keeps this time. We have had it sitting around here for several weeks and it seemed to be behaving, but keep an eye on it and send it back if it starts to rust.

Hope that your eclipse tour was both pleasant and rewarding. We have heard that the viewing was generally good but have not seen any published photos.

So far this has been a rather unproductive summer, but it is time for things to change.

With best wishes,

Sincerely,

Glenn I Huss
