Mr. Oscar E. Monnig  
29 Chelsea Drive  
Fort Worth, Texas 76134

Dear Mr. Monnig:

Thank you for your letter and check of June 11.

Your slice of Nazareth arrived day before yesterday and we have been working on it. It was in pretty bad shape and looked as though it had oxidized more during shipment. Fortunately, most of the oxidation was only on the surface and it will clean up nicely.

I had not previously seen a Nazareth specimen oxidize like this. Now I will know to be more careful with that fall.

We will use the time until your return to make sure that we have stopped the oxidation. I will write when it is in the mail back to you.

I hope that your trip is pleasant and that you get to view the eclipse.

With best wishes,

Sincerely,

  
Glenn I Huss
