1982, Sep 11

Gentlemen:

I am answering your Sep 8 letter y Dorothy Sigler.

Referring to your catalog M I will take the Nueveo Mercurio specimen No. NM1 701 but I do not have your list here at my home and do not remember the exact price. Hence I enclose a check for \$350.00 and we can adjust the difference later.

If you want to just hold everything for 10 days, do so. I am going to St. Louis to a meeting of The Meteoritical Society, leaving in the morning, and will not return till Sep. 18.

I have some interest in specimen of 44 grams which you mention but cannot say positively I will take it now. You can let me know if you still have it when I return.

Sincerely,

P.S. Do not mail anything before Sep. 20 because I shall be gone. Go ahead and use my check.

Yours sincerely,
