P.S. I was very glad to hear that Grand Father was getting better. I have some hope now that I will get to see him again through from The Fort of your letters when I was at winter quarters I expect Ted the next letter to hear of his death. The boys that are not dead are all well. Lasher Bowden is dead. He died with the measles Pete has got back to camp fit and hearty. Ben Kennedy was getting well the last time I heard from him. I knew all about Light being wounded and Andrews death before I received your letter. Guy is in Wharton's Regt. Pete sends his respects to you. I have nothing more to write.

Sam
