When you find a fellow such as this letter shows Mauldin to be, there's no use arguing with him. Such is a waste of time and effort. Evidently, he is one of those dyed in the wool Fergusonites ~~xxxxxxxxxx~~ who would still be for Ferguson if he carried off the capitol. He had waste under other administrations it is true; we always will have. The Neff administration left the state in debt; that's true. But there is this difference; there was no scandal connected with the debts or the waste of the past. JMN
