Dear Amos: -

When I heard you had gone to Europe to see your son I was very happy for you both knowing how much you loved your children and what it meant to you to have had that privilege of being with them. I did not hear until recently of your sorrow. Please accept my deepest sympathy and a prayer will follow that he be returned to you safely. I am a firm believer in prayer and where we are powerless. God can protect and take care of your dear son where ever he may be.

Tom and I are going in Town this afternoon and I am very anxious for you to get this

this little message -

With a heart full of
sympathy and a prayer
that goes with it for you

I am

Fondly

Harriet,
