Dear Tom:

Thank you for your kind letter of congratulations, and for your support in the past, hectic weeks of the campaign. Janey and I feel very humble in the realization that so many friends have worked so hard for this victory. While there is still another hurdle in November which we must again win, we believe that victory is attainable.

Our victory in November will mean that Texas will enter a new era of dignified, dedicated, honest leadership in which each Texan can play a vital, contributing role toward building a progressive, responsive state government.

Thank you again for your treasured friendship.

Sincerely,

Dolph Briscoe, Jr.
