Secretary-Treasurer

Mr. Joseph R. Felich
Trans-American Life Building
Fort Worth, Texas

Dear Mr. Felich:

The estimate from the State Electric Company, in connection with lighting the Will Rogers equestrian statue and mesquite trees adjacent thereto, has been received.

The matter has been presented to our board, and it is the unanimous opinion that the price is so outrageous that it would not even be considered.

I wonder if you would ask either the State Electric Company or someone else for an estimate on just lighting the mesquite trees. This is on city property, as you know, and were such an elaborate system to be put in (although we have no intention of doing so at the quoted price), the City would not be able to pay the light bills.

Yours very truly,

Katrine Deakins
Secretary
