After you left Sunday I had an attack of flu and had to stay home two days Stop And yesterday we had a run on the First National Bank, the oldest in the city and one of the strongest in the nation Stop But just to show you how we do things down here, the bank stayed open till every sucker who wanted his money had received it, served sandwiches in the lobby to everybody and had two orchestras entertaining the crowd Stop Instead of a run it turned into an old-fashion party Stop And Wednesday the small individual depositors and the savings accounts, which were the only ones withdrawn Tuesday night, were redeposited and the increase in deposits far exceeded the withdrawals Stop

Our friend Billy Moore, the postmaster, was almost worn out Stop As fast as the savings bank depositors withdrew their money from the bank and deposited it in the Postoffice Billy had to bring it back and put it in the bank Stop They almost wore out both Billy and the ~~bank~~ <sup>money</sup> Stop Today everything is normal, the bank is being flooded with congratulations, and Fort Worth is going right ahead Stop I just wanted you to know what your visit did Stop Best regards.
