

December 23, 1937.

Mrs. John N. Garner,  
U. S. Senate Office Building,  
Washington, D. C.

Dear Mrs. Garner:

Your lovely, sweet letter received and we were delighted to know that you were pleased with the remembrances from the Carters. Naturally, it goes without saying that there are none on our list for whom we have a higher esteem or greater affection than Mr. John and Miss Ettie.

You, no doubt, remember the bronze bust made by Electra Waggoner which was presented to the State Building in Dallas during the Centennial. I liked this very much and have ordered a duplicate which Mrs. Carter and I will present to the Texas Technological College at Lubbock. Inasmuch as it is impossible to make the trip to Lubbock at this time we have arranged for Dr. Bradford Knapp, President of the Texas Tech, and Mr. Clifford Jones, Chairman of the Board, to be in Fort Worth Thursday afternoon, December 30th, at which time the presentation will be officially made. It would be a nice thing for Mr. Garner to send Dr. Knapp, President of Texas Technological College, a nice telegram in care of the Fort Worth Club, expressing his regrets for his inability to be here for the occasion, as well as his best wishes for the institution which he holds in high esteem, etc.

I will send you photographs of the presentation of the bust later on.

With best wishes, I am,

Sincerely,

AGC.KD
