December 11, 1952

To: The Directors

At my request you authorized a substantial sum for recreational facilities, this on the basis that we would make a firm decision about the need as soon as possible.

I asked Messrs. Mosier and Hogan to go into the problem in detail. That has been done and they have made a report and recommendation; that we do not make the expenditure. Their recommendation has been accepted and the funds will not be expended. Further detail can be provided at the next meeting.

C. R. Smith
