

October 10, 1936.

Mr. Mark Hanna,
Hanna & Hanna,
Hereford, Texas.

Dear Sir:

In going through an accumulation of mail on my desk, which has gone unanswered due to the fact that practically all of my time for the past few months has been devoted to the activities of the Frontier Centennial, to the point it has been impossible to read all of the mail much less acknowledge it, I ran across your letter enclosing three kodak pictures of Will Rogers and the largest steer in the world and outlinging proposition to put them on sale in connection with the Will Rogers' exhibit at the Centennial.

Of course, it is too late to attempt anything of that nature and I am truly sorry the matter has been overlooked; however if you have prepared any hand made prints or gravure, I would appreciate your sending one each on approval.

I am leaving in the morning for San Francisco where I will depart on the China Clipper for Honolulu and Manila. If you send the pictures, I will either keep them or return them upon my arrival home in a couple of weeks.

Yours very truly,

Secy. to Mr. Carter.
