Letters were sent out October 10th, and acceptances have been received from about half of them. The others I am sure will be O.K. It is my intention to contact these people direct from Fort Worth, however I suggest that you send additional matter to them from National Headquarters which will have a tendency to keep them pepped up.

Clarence Burke arrived home last night. I met him at the airport and he is starting out on the job Monday morning.

With best wishes, I am

Sincerely,
