Carter

October 26, 1936

My dear Amon:

It was nice of you to think of me so far away, and I want you to know that I appreciated your cable from Manila. We hope that you had a pleasant trip and will return to us safe and sound.

Have been out campaigning for the good old Democratic party, and as far as I can see, everything points to the re-election of the greatest President that the United States has ever known - Franklin Delano Roosevelt, and my personal prediction is that he will win by an even greater majority than he did in 1932.

Hope this finds everything going along all right with you and Mrs. Carter and that you are both in the best of health. Hope you will drop me alline when you get back and let me know all about your trip.

With kindest personal regards,

Your pal.

Jack Dempsey
