Gentlemen:

I have the papers on the above you kindly forwarded June 29 and note they indicate I still owe you \$2.00 for a weighing charge.

I will gladly pay this if you actually incurred it. However, I never received any information about the actual weight thru you, and when the shipment got here I had to have it weighed locally.

Kindly advise if I owe this, and if so send the papers showing the weight as determined by actual weighing.

I appreciate your handling of this matter, which was done quite satisfactorily. The shipment has been delivered to me in good condition.

Yours sincerely,
