Attn. Becky Norworthy

Gentlemen:

I talked to your Miss Norworthy May 4 about running an article concerning a meteorite being put on exhibit at the Strecker Museum (Baylor U.).

I believe you ran the item in your paper of May 7.

I would very much like to have a copy of this article or paper and enclose 25¢, for which I hope you can send it to me.

No information came in as a result of my appeal for facts concerning Dr. Hawkins' acquisition of the stone. But I know people read it with interest. Among other responses, I got one from a girl at Hillsboro who thought she had found some meteorites on her father's farm, but they turned out to be artificial slag.

Thank you for your help and co-operation.

Sincerely,
