JAMES A. FARLEY  
CHAIRMAN OF THE BOARD

August 19th, 1952.

Dear Amon:

I am in receipt of the 1952 Market Map which you so kindly sent me. I looked it over with much interest and in it I found plenty of evidence of considerable growth and prosperity in the last twenty years of Democratic rule.

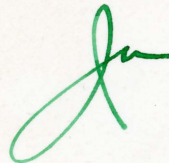

In my judgment speaking as an old time organization Democrat, more or less on the side lines, I would have this used as an argument for the retention of the Democratic Party in power. If I were National Chairman now, Amon, I would certainly take advantage of your pamphlet and I am sure we could use it to advance the interests of the Democratic nominees.

Incidentally, I wonder if you have heard anything from Silliman since his man lost out in Chicago. He lost his Governor and the way it looks to me he is not riding as high as he did. By the way, I saw him rather briefly in Chicago at the Convention on one or two occasions and didn't think he looked very well physically.

If you come this way, you better look in on me and we will get together, because it is up to you and me to keep everything on an even keel.

Bess joins me in sending all good wishes to you and Mrs. Carter.

Sincerely yours,

Hon. Amon Carter,
