Mr. Amon G. Carter  
Ft. Worth Star Telegram  
Ft. Worth, Texas

Dear Mr. Carter:

I want to thank you for sending me a copy of your paper dated March 21st carrying the editorial "The Burlington Buries the Hatchet."

This matter has been very interesting to me from its inception and I do know that without your personal interest in Fort Worth and West Texas this matter would not have been concluded in its present form. Your untiring efforts together with the assistance of the Fort Worth Star Telegram have brought about this victory.

It is always pleasant to know that anything that is good for Fort Worth attracts your interest, and it is usually accomplished.

I want to take this opportunity to express my appreciation of the many fine things you have done, which help every firm in Fort Worth and West Texas.

I just noted in the paper yesterday that your son, Amon, Jr., has been liberated from a German prison camp and know this makes you very happy. We certainly rejoice with you. We hope that he, as well as many thousands of other boys, will soon return home in the best of health; and with every good wish, I am

Sincerely,

H. C. Holland, Pres.
