Dear Mrs. Deakins:

The largest pre-print of stock certificates are for 100 shares. When there is a demand on the part of a stockholder for a certificate in excess of one hundred shares, it is necessary to type in the denomination on the certificate, and we have several 10,000-share certificates outstanding at this time.

It seems to me the specific answer to Mr. Carter's question is -- the largest pre-print certificate is for 100 shares, but any denomination in round numbers up to the entire issue could be issued upon the request of a stockholder.

Yours sincerely,

Wm. J. Hogan

Mrs. Katrine Deakins
