Mr. Amon G. Carter,  
FORTH WORTH,  
Texas,  
U. S. A.

BY AIRMAIL.

Dear Sir,

We, as most people in this country, have been very much interested in reading the notices in connection with yourself personally, and with Fort Worth.

It appears to us, however, that no thought has yet been given to completing the interest of that city by the addition of a heavy Chime of Bells placed in a central steel tower to strike the Hours, chime the Quarters, and automatically, at pre-determined times in the day, play well-known tunes and airs.

Should you be personally interested in any such scheme it would give us the greatest pleasure to submit preliminary information without putting you under any obligation.

We are,

Yours faithfully,

for GILLETT & JOHNSTON LTD.

R. F. A. Housman
