Dear Amon:

The front page of your newspaper and the report on Amon Junior has left me very sad indeed.

I know something of what must be in your own heart and I wish you to know that I feel deeply for you, but I have a peculiar feeling that he will be found and that soon you will have news so will you please let me know, my dear, as you know that I am always your friend.

I live at the Savoy-Plaza now but of course with spring here, I am most of the time in Connecticut. If you are in New York let's find a little corner some place and talk things over.

All best -

Grace
