

IN REPLY REFER TO:

HEADQUARTERS, ARMY AIR FORCES
WASHINGTON

7 February 1946

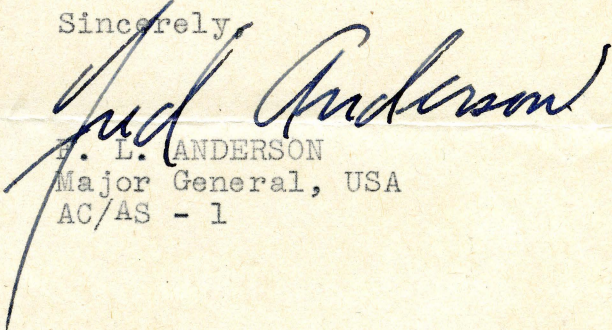

Dear Mr. Carter:

I would like to express to you in behalf of myself and the Army Air Forces our thanks for the opportunity which you afforded me to appear before the air-minded people of Fort Worth.

I have discussed our meeting with General Spaatz and other members of the Air Staff and the great interest shown by yourself and other members in the place of air power in National Defense, and its development, is extremely gratifying to us all. We are convinced that nothing other than the active support of persons like yourself can bring before the public the urgent importance of the Nation's providing itself with the proper military structure, a structure which will allow the greatest possible military might and readiness with the minimum cost.

I appreciate the time that you spent with us and hope that you will call upon me if I may be of any assistance to you. Many thanks for your hospitality which was enjoyed by us all.

Sincerely,

F. L. ANDERSON
Major General, USA
AC/AS - 1
