My dear Mrs. Deakins:

Could you possibly drop me a few lines on the Will Rogers Memorial Carillon project plans - be they good, bad, or indifferent? This I would greatly appreciate.

We are dedicating a nice, medium-sized Carillon in Greenwood, South Carolina, sometime in October, and should Mr. Carter want to wait until that time, we would be honored to have him, or a representative of his, attend the dedication.

Dr. Kamiel Lefevere, acknowledged the world's greatest carillonneur (Dr. Lefevere was formerly professor of technique at the International Carillon School, Malines, Belgium, and is presently the carillonneur of the Riverside Church Carillon, New York City), will play the dedication recital.

With the hope you have air-conditioning in your office, I am

Sincerely yours,

Donald Beggs
