Yours of the 27th inst. is to hand and note what you say. You state that you "owe us a thousand apologies regarding the Tombstone affair." — We see that you owe us \$26²⁵/₁₀₀ and we have not as yet received the money, saying nothing about the apology. We can't pay our debts with apologies. We owe the money and our creditors want it and must have it. We owe Dally and if you can settle the matter with him, it is all right if not, we must have the money.
Yours Very Truly Mrs. B. F. Spain
