Mr. A.G. Carter, Publisher,
 The Star-Telegram,
 Fort Worth, Texas.

Dear Mr. Carter:

Your many friends in this city appreciate the stand taken by yourself in the present political upheaval in Texas and we are with you in the determined initiative taken to protect the interests of the people of Texas.

Since the action of Governor Ferguson to embarrass you and the Texas Tech developed, there has been considerable discussion of the matter here, and you may rest assured that, for the most part, Colorado is with you.

I am not addressing you this communication for publication. Personally I supported the present administration in the run-off primary election, but developments at the State capital have grown more and more disgusting.

With best personal regards and wishing you and the Star-Telegram a merry Christmas and prosperous New Year, I am,

Yours very truly,

Secretary
 WSC/am
