Suggestions for preventing a re-  
Occurrence of the poor health of last  
Winter.

1. Increase, if possible, the amount of  
Meat and beans & potatoes. At least  
Most of sickness

Maintain present issue caused by malnutrition

2. Hot baths every day men are exposed  
To rain and extremely cold weather.

3. Keep stoves going in barracks enough  
To keep chill from same. If possible  
Start fires about 3 A.M.

4. Issue enough soap so men can keep  
Their bodies clean. Without soap, hands  
Become soiled and chapped; crack open  
And become infected.

5. Companies that work men in open  
Should have good hot soup at noon and  
Plenty hot water.

6. I believe that 2 weeks work shovel  
Ing ore, coal or coke is enough exercise for  
Any one without expending needless  
Energy on Yasume day.
