Friend Tom:-

I am enclosing account of sale for one car of steers sold for your account today. I finally sold them at \$4.15, with one canner steer at \$1.50. It looked for quite awhile like I was going to have to sell these cattle at four cents a pound. I wanted very much to get \$4.25 for them but they were just not good enough.

The one steer was about as hard as you ever saw. I really think it was higher than the load. I certainly appreciate handling this business for you and I believe you know that I will leave nothing undone to get the last penny.

Yours truly
