Amon G. Carter, Esq.
Ft. Worth Star-Telegram
Ft. Worth, Texas

Dear Mr. Carter:

Mr. Emanuel returned from Washington today, where he has spent the entire week, and is returning again tomorrow for another several days. I brought your telegram of the 8th to his attention and he has asked me to write you in his behalf advising that he has requested that I forward your original telegram to Mr. Harry Woodhead at Williamsport, Pa.

Mr. Emanuel asked me to tell you that he does not know at this time if Vultee Aircraft, Inc. will need additional facilities or not, that it will depend on how much additional business they will get since they have just taken over the Stinson Aircraft Division of Aviation Manufacturing Corporation which has plants, as you know, at Wayne, Michigan and Nashville, Tennessee; however, if more facilities are required, you may be absolutely positive that Ft. Worth will receive first consideration.

Thanking you for your telegram in his behalf and expressing his very best wishes to you, I am

Very sincerely yours,

(S) Margery Bell.
Secretary to
Mr. Victor Emanuel.
