

Oct. 25, 1971

Dear Oscar:

Thank you for your card of October 21. My rocks arrived about 2 weeks ago. Hope yours have shown up by now. We are sorry to hear of your wife's misfortune and hope she soon regains full use of the arm and that the burn is now completely healed. It was a pleasure being with the three of you on the various trips in Germany.

I saw a minor fireball at dusk October 20. The fireball was coming straight down ^{had} in a bluish cast and ended in a spray of fragments. I was at Logan, New Mexico looking east at the time. If there was noise I did not hear it because of heavy traffic on the nearby highway. Sorry that you did not find some of the fireball that ended near Breckenridge.

Sincerely yours,

Dingil
