

February 29, 1932.

Hon. John N. Garner,
Washington Hotel,
Washington, D.C.

Dear John:

In keeping with my promise, by this time you should have received the 5-X Beaver Stetson marked inside "Hooray for John Garner and West Texas."

As you know, in this great State of ours, a Stetson hat is considered an emblem of stability and good fellowship. Inasmuch as you measure up 100% in both requirements, nothing could be more appropriate than your representation of these two important factors in the progress of civilization.

If the hat does not fit you perfectly, return it to the Stetson Company and I am sure they will be glad to adjust it. Incidentally, the hat was purchased through a Fort Worth firm and the order sent to Philadelphia from here, feeling that they could fix it up in better shape.

Your answer to "Jack-Ass" Moses was in keeping with what we have learned to expect from you on all occasions of this kind. While they originally found Moses in the bulkashes, I think the time is soon approaching when we can retire him to a more obscure place.

With best wishes, I remain

Sincerely,

AGC.KD
