

March 2, 1948.

Mr. Donald Beggs
vanBergen Carillon Company
1204 Walnut Street
Philadelphia 7, Pennsylvania

Dear Mr. Beggs:

In reply to your telegram, which was received during my absence from the office, may I advise that the Will Rogers Memorial Tower Carillon project is status quo.

Mr. Carter was in the midst of two tremendous deals all last year, which were not consummated until September. He then married and went on his honeymoon for a couple of months; returned to go into the midst of the usual Christmas activities, and about the first of the year contracted some sort of cold bug and was confined to his home for eight weeks. Only last Saturday he was able to leave for Arizona to recuperate, so everything has been more or less held in abeyance pending his return to the office.

We are in hopes that he will return fully recuperated, and if so, I am sure he will complete some of the projects he had in mind.

Yours very truly,

Secretary to A. G. Carter
