

11-17-66 Cranfills Gap Tex as
hematite 6-7-65

Dear Oscar received your letter
and thanks very much for the
litterature on meteorites. the one I
have is small but, it shows
to be. I have had it for some
time. upon lightly hitting
it with Emory wheel. Shows
to have some metal in it.

Any time you are down this
way drop by and you can
look it over and see what you
think.

I operate the cleaning
& Pressing Shop here every one
knows me.
