My dear Mr Carter :-

There is an ad slogan among salesmen to the effect, "that when some one starts talking about you, whether favorable or unfavorable you can afford to put them on your pay roll."

This bit of logic applies to other fields and conditions as well. Your position as regards West Texas, its school and all it represents is, now, more secure than ever before.

The value of publicity you received on this recent "outburst" from the State autoverts is incalculable. Your reply, indeed a masterpiece.

Very sincere regards from an admirer.
