Mr. Mr. Carter:

Department _____

About Niles:

I talked with him the morning the news was received. He was VERY distressed. Said he would call you right back--I told him not to call until later--as I was sure you were busy. He wondered if he could put anything on NBC about it--I told him I was sure you did not want SPECIAL treatment. Said he would going to phone Lee Olwell. And would phone you.

I should have told you--but I just figured he had reached you. Am sorry.

Harold.
