

Camp Alcorn
Hopkinsville Ky.

Nov. 29th A.D. 1861

Sat. M^o T. of Love:

Dear parents:

This leaves me in good health except that I yet have a little cold John. It has been smartly afflict[ed] with cold which affected his throat very much in connection with which he had some fever - he has also had very sore hands he is a good deal better however at this time. Robt. High and Andrew are complaining some Andrew had a chill yes-
terday - there are about 30 of our company who were declared not fit for duty Uncle A.C. was left at Clarksville when we left that place and has never come up having been left in charge of the sick boys all of whom are not well yet.

I think we are on the eve of a move from this place to some other part of the Globe I do not know and can hardly imagine where some think we will go to Bolin Green others that will go to Columbus and still others think to Memphis - My impression however is that the Infantry will be moved some where near Columbus and the Cavalry to Bolin Green this is all mere con-
jecture however on the 1st were moved to Clarksville yesterday and our surplus goods are going that way to day there is a report in camp to day that there was a fight at Bolin Green a few days ago in which we were said to have given the yankees a terrible brushing but the report is not believed Dr Kiddle of the Waco Co is present - he says he got a letter from some one

in Terry's Regiment in which the Regiment is said to have lost about twenty five by disease and that as many more are sick and will likely not be fit for duty this winter

We are made to understand here that the Northern army will not go into Winter Quarters any where else but at Nashville and Memphis This I guess is another boast like that of Scott's intention to have Richmond and Memphis by the 15th of last July

The paper which bears the name of Louisville Courier which was formerly published at Louisville and now at Bolin Green gives in its last issue an account of vast numbers concentrating near or at Crab Orchard Ky with the design as is supposed of making a descent on Bolin Green and thence to Nashville large forces are said to be concentrating about Cairo for the purpose of descending by way of ~~Kentucky~~ bus to Memphis Kentucky has by Convention at Russelville seceded from the Old Government and appointed a provisional Government great numbers of the people of this state are Unionists but from what I can learn I believe a considerable majority are for Secession 64 Counties are said to have been represented in the Convention they being considerably more than half of the State and a great part of the State not represented on account of the Northern forces having possession of it and it being known that a man dare not exercise the rights of a free man where they have the power - Maryland has a Legislature of Union men on the same grounds

If we are moved from here I will write you again soon = I would like exceedingly to know something of the boys what they are doing and where they are

I rec'd a letter from Terissa since I left home
in answer to one written to you = it was the first
and last that I have had from home
I hear a little something now and then through
some other persons letters from near home
but nothing from thine = the Drum has
just beat for dress parade and I must get
this letter = It has been raining for several
days with some intermissions

I will write again soon write when you
think fit

C W Love
