R. CLARK, V. Pres.

THORP'S SPRING, HOOD CO., TEX.

June 22, 1881.

My dear Addison

I received your card of 18th yesterday. Hop, a you need not bother about getting those dresses, you cant get them ready made without my measure. I meant to tell you to get the calico at Weatherford I sent down to the store for some samples of calico they sent me such an ugly lot of them I did not think I could of them I did not think I could use any of it.

Jesse has been sick in bed since Sunday will not be able to be in school any more he has flux. he is better today. I sent Lister down there this morning. I have not felt like going since Monday, want to go this evening when it gets cool.

They want to start to Rouham Monday. I believe the rest of the sick folks are all up. Did you get the Doctors letter? he directed to Palestine. I believe

I forgot to tell you that Mr. Alf Jaly
was married I dont remember the Ladys
name. We have not seen any fruit
dont reckon we will. The weather continues
dry and hot, there will not be any thing
raised in this part of the country. While
you are in Elis. if anyone offers to
give you houney, do not refuse to take
it. Manage some way to get it home.
Bathu Bell was in this week, he wanted
you to be at home by the second Sunday
wants you to preach somewhere out there.
Addie has been visiting with this fever
and almost missed it. I must hunt
a better one before I write again. I
have fixing up the mattresses burning them
washed, and making them over I am
working on the third one. have two
more to make. The children all
send love.

Affectionately
Sallie
